MODEL	9°	10.5°	12°
LOFT	Adjustable (8° – 11°)	Adjustable (9.5° – 12.5°)	Adjustable (11° – 14°)
LIE ANGLE	Adjustable (58°)	Adjustable (58°)	Adjustable (58°)
LENGTH	45.75"	45.75"	45.75"
WOMENS' LENGTH	N/A	44.75"	44.75"
CLUBHEAD VOLUME	460cc	460cc	460cc
SWINGWEIGHT	D2	D2	D2
WOMEN'S SWINGWEIGHT	N/A	C8	C8
LEFT HAND	Yes	Yes	LH Women's Only

Effective Jan 1, 2020, all club lengths will be based on USGA measurement procedures. Some measured and thus published lengths have changed but the actual club lengths are the same as previous models.

OUR FASTEST DRIVER FEATURING AN ALL–NEW CYCLONE AERO SHAPE FOR REDUCED DRAG

New A.I.-designed Flash Face SS20 For Fast Ball Speed Across The Face
MAVRIK thinking fueled our new, A.I. designed Flash Face SS20, to promote fast ball speeds across a more expansive area of the face.

High-strength FS2S Titanium For Consistent Performance
New face architecture features FS2S titanium, an extremely strong material that's 6 grams lighter than traditional titanium to promote optimal speed, forgiveness, and spin robustness.

Jailbreak + T2C Triaxial Carbon Crown For Ball Speed and Forgiveness
Two internal Jailbreak bars connect the sole and crown to promote fast ball speed, and the significantly lighter carbon crown allows us to redistribute weight for higher MOI.

Unparalleled Sound & Feel From Acoustic A.I.
We also used A.I. to design a sophisticated internal titanium rib system that fine-tunes the head to produce a deeper, highly satisfying sound.

DESIGNED BY A.I.

A REMARKABLE COMBINATION OF LOW SPIN & HIGH MOI

New A.I.-designed Flash Face SS20 For Fast Ball Speed Across The Face
MAVRIK thinking fueled our new, A.I. designed Flash Face SS20, to promote fast ball speeds across a more expansive area of the face.

High-strength FS2S Titanium For Consistent Performance
New face architecture required FS2S titanium, an extremely strong material that's 6 grams lighter than traditional titanium to promote optimal speed, forgiveness, and spin robustness.

Jailbreak + T2C Triaxial Carbon Crown For Ball Speed and Forgiveness
Two internal Jailbreak bars connect the sole and crown to promote fast ball speed, and the significantly lighter carbon crown allows us to redistribute weight for higher MOI.

Interchangeable Weights to Fine Tune Ball Flight
The slightly smaller 450cc head features two interchangeable weights in the front and back (14g and 2g) to promote changes to launch angle and spin rate.

OUR FASTEST FAIRWAY WOOD

Flash Face SS20 + Forged C300 Maraging Steel For Optimized Performance
Our new A.I.-optimized Flash Face SS20 is forged from exotic materials, which are uniquely designed for each model and loft to maximize ball speed and performance.

Jailbreak + Face Cup + T2C Carbon Crown For Fast Ball Speed and Forgiveness
We've combined our industry-leading technologies to deliver distance, forgiveness and performance from every club.

Progressive Leading Edge For Enhanced Performance
A unique leading edge geometry in every model for easy launch.

Optimized Weighting to Maximize Distance and Accuracy
MAVRIK features a single fixed weight in the sole to pull the CG low and back in the head for high launch and flat trajectory.

DESIGNED BY A.I.

LOW CG AND HIGH MOI IN A MID-SIZED HEAD PACKED WITH SPEED-ENHANCING TECHNOLOGIES

A.I.-designed Face Architecture for the First Time in a Hybrid
We used A.I. to design a specialized face for each loft of every model to optimize ball speed performance in all MAVRIK hybrids.

Flash Face SS20 + Jailbreak Technology + Face Cup for Fast Ball Speed
Flash Face SS20 constructed from a high-strength steel face works with proven Jailbreak technology and our renowned Face Cup Technology to promote exceptionally high ball speed.

Fast, Forgiving and Easy to Launch
Ideal combination of speed, stability and CG placement to promote easy launch, long carry and soft landings – exactly how a hybrid is expected to perform.

OUR LONGEST MAVRIK IRON, WITH INCREDIBLY FAST BALL SPEEDS FROM OUR A.I.–DESIGNED FLASH FACE CUP

Industry-leading Ball Speeds From Flash Face Cup Technology
For the first time, we're using Artificial Intelligence in an iron. We've created a sophisticated face architecture that's unique to every loft, so we can create a significant boost in ball speed and increased spin robustness off of every iron. And ball speed is further enhanced by our 360 Face Cup that flexes and releases at impact.

Optimal Launch From Tungsten Energy Core
The custom tungsten weights in each iron allow us to locate the position of the CG in each iron with extraordinary precision while still maintaining ball speed in the Flash Face Cup. This promotes optimum launch and ball flight through the set, from strong lofts and player preferred trajectory, spin rates, and land angles.

Unprecedented Feel From Urethane Microspheres
We've implemented our patented urethane microspheres to comprehensively absorb unwanted vibration for pure feel, while also maximizing COR for incredible ball speed.

Premium Components
MAVRIK is available in stock premium shafts from True Temper and Project X with premium Golf Pride Grips.

DESIGNED BY A.I.
