

BRAND GUIDELINES

LOGO

**THIS IS THE
PRIMARY VERSION
OF THE LOGO
AND SHOULD BE
USED WHEREVER
POSSIBLE.**

The integrity of the logo must be maintained at all times. It should never be altered or distorted in any way and must always scale proportionately.

BRAND LOGOTYPE

CHEVRON ICON

BLACK ON WHITE

Logo color is ultimately dictated by the background color of the execution. In cases where the background is white, or a light color, the logo should be black.

WHITE ON BLACK

When the background is black, or a dark color, the logo should be white.

CHEVRON

The 'Chevron' icon should only be used when the full Callaway logo is present somewhere else in the materials. Never use the icon by itself.

COLOR USAGE

The 'Chevron' icon can only be used in the approved colors: black and white. No other color is acceptable.

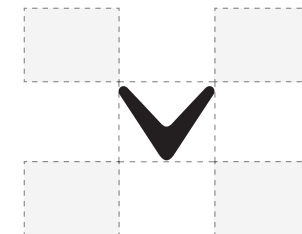

0.25"

The minimum size for the Callaway logo is based on the height of the brand icon. The icon is to appear no smaller than 0.25" in printed materials.

CLEAR SPACE SIZE

The minimum amount of space that should surround the Callaway logo in all executions is equal to the height and width of the Callaway “Chevron”.

GRID SYSTEM

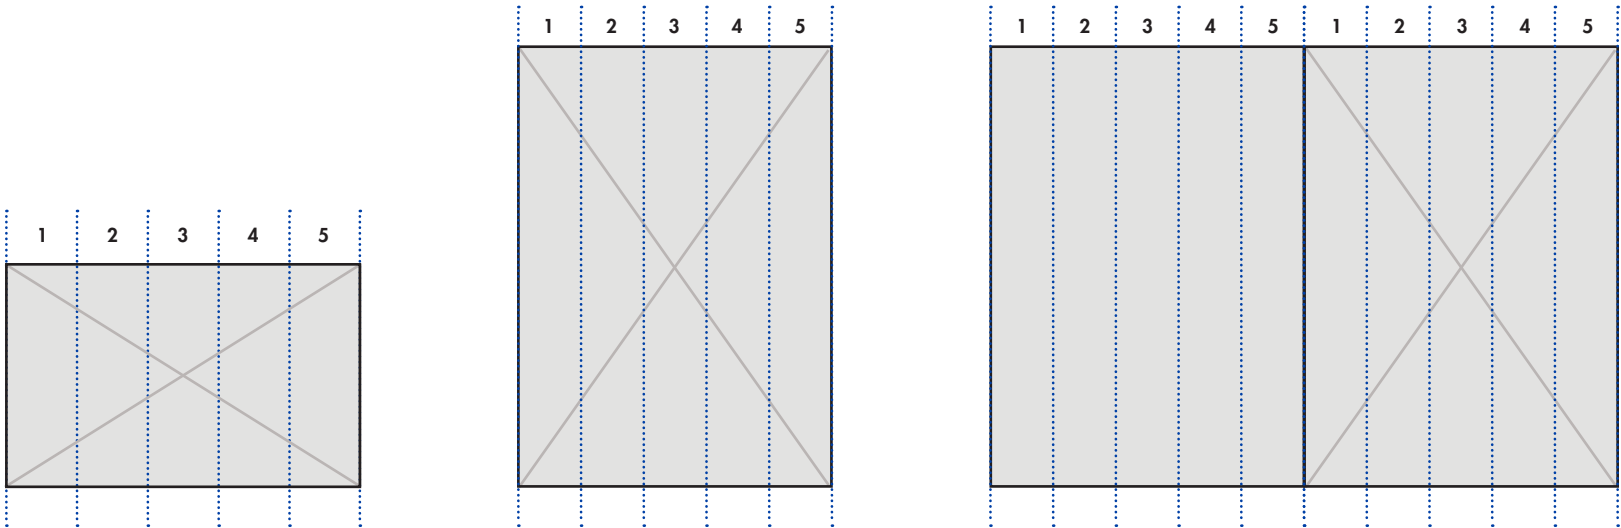

GRID SYSTEM FOR COPY

The best way to position the copy is by dividing the space into 5 columns. Once divided, place the copy between columns 2, 3, and 4, allowing the side columns, 1 and 5, empty. Copy can use 1, 2, or 3 columns, depending on what fits best. Copy should be aligned to the left, but can also be centered or aligned to the right.

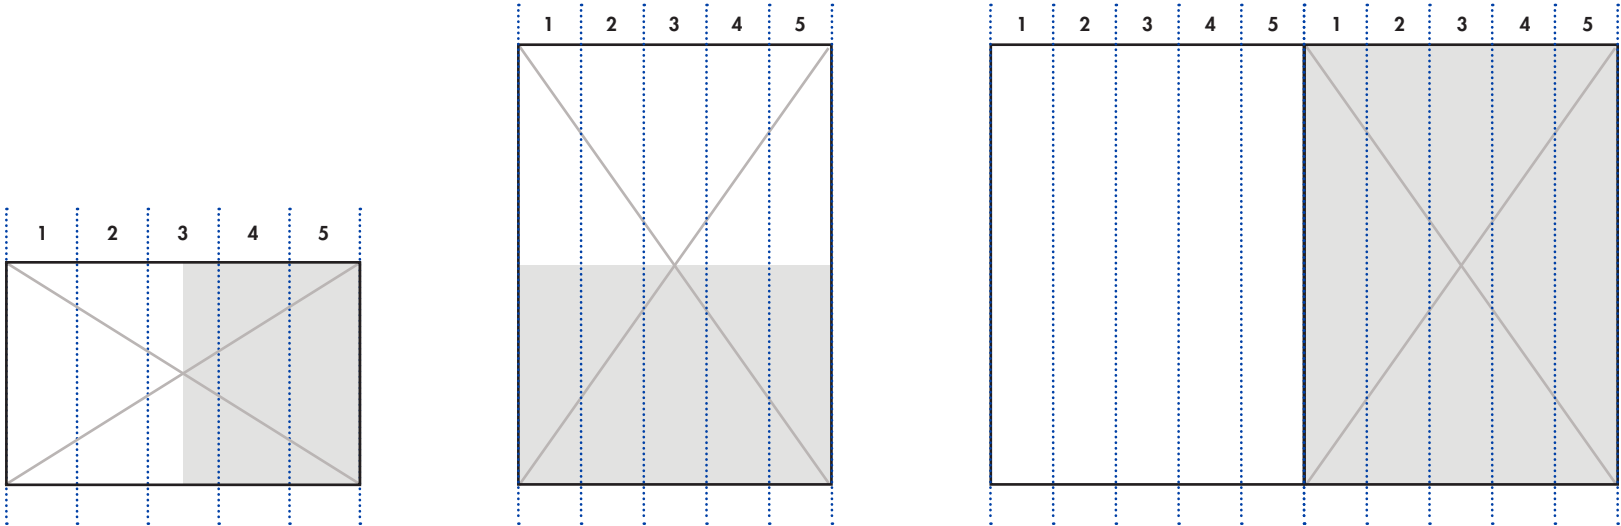

GRID SYSTEM FOR IMAGES (PART 1)

Always use the full width of the space provided whenever possible.

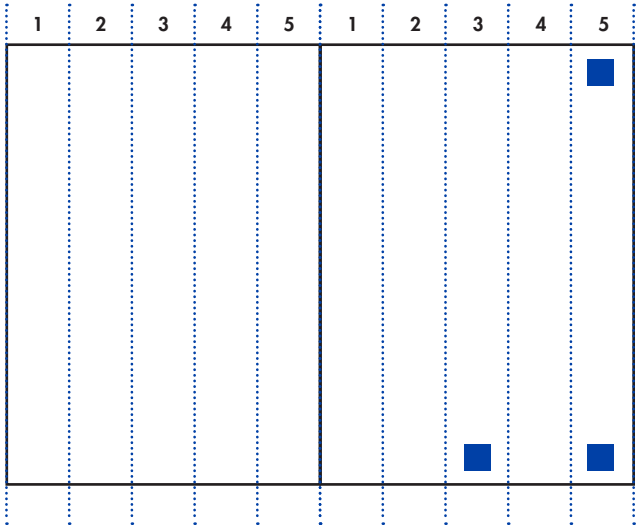

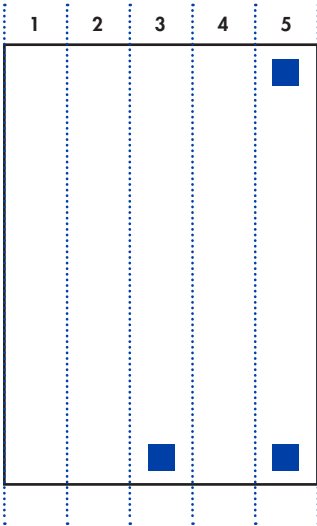

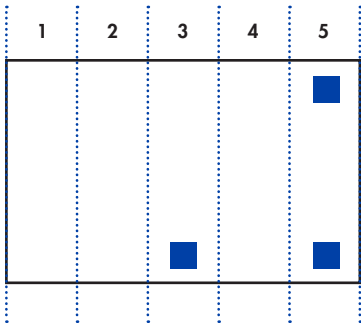

GRID SYSTEM FOR IMAGES (PART 2)

If not, use at least 50% of the space.

GRID SYSTEM FOR LOGO

The best logo positions are the right hand bottom corner, right hand top corner and the center bottom of the space provided.
