NEW A.I.-DESIGNED FLASH FACE SS20 FOR FAST BALL SPEED ACROSS THE FACE

MAVRIK thinking fueled our new, A.I. designed Flash Face SS20, to promote fast ball speeds across a more expansive area of the face.

HIGH-STRENGTH FS2S TITANIUM FOR CONSISTENT PERFORMANCE

New face architecture features FS2S titanium, an extremely strong material that's 6 grams lighter than traditional titanium to promote optimal speed, forgiveness, and spin robustness.

JAILBREAK + T2C TRIAXIAL CARBON CROWN FOR BALL SPEED AND FORGIVENESS

Two internal Jailbreak bars connect the sole and crown to promote fast ball speed, and the significantly lighter carbon crown allows us to redistribute weight for higher MOI.

UNPARALLELED SOUND & FEEL FROM ACOUSTIC A.I.

We also used A.I. to design a sophisticated internal titanium rib system that fine-tunes the head to produce a deeper, highly satisfying sound.
