## A.I.-designed Face Architecture for the First Time in a Hybrid

We used A.I. to design a specialized face for each loft of every model to optimize ball speed performance in all MAVRIK hybrids.

## Flash Face SS20 + Jailbreak Technology + Face Cup for Fast Ball Speed

Flash Face SS20 constructed from a high-strength steel face works with proven Jailbreak technology and our renowned Face Cup Technology to promote exceptionally high ball speed.

## Fast, Forgiving and Easy to Launch

Ideal combination of speed, stability and CG placement to promote easy launch, long carry and soft landings – exactly how a hybrid is expected to perform.
