

2-ball Tens

A DRAMATICALLY BETTER PUTTER.

NOW DRAMATICALLY BETTER.

OUR MOST EXCITING HEAD SHAPES

We've enhanced the Ten shape that's incredibly popular on Tour and with golfers. It's sleeker, more forgiving, and now you can choose from impressive options in our 2-Ball or Triple Track to help improve your alignment. This is our best 2-Ball model ever, and these features are engineered to help you frame the ball at address with your intended line.

RED STROKE LAB SHAFT

As seen on TV – especially on Sunday afternoon! Our latest generation shaft was introduced last season, and now features even better performance than the original!

By shortening the steel section, we reduced the weight by seven grams. We also made it stiffer and more stable for even more consistency in your stroke, and your performance. Stroke Lab works, that's why it's winning major championships and dominating at the world's biggest events.

WHITE HOT INSERT

The most popular putter insert of all time is back with the original formulation, feel, sound, and performance. When Tour players and recreational golfers asked us to re-introduce it, we listened.
