

WOMENS ROGUE ST

OUR LONGEST FAIRWAY WOOD EVER

SPEED AND STABILITY FROM ALL-NEW JAILBREAK ST

The new A.I.-designed Jailbreak system has been completely redesigned to promote speed and stability. The two Jailbreak batwings are pushed to the perimeter, providing stiffness while allowing the face to flex for high ball speeds.

OPTIMAL LAUNCH WITH MORE SPEED FROM THE TUNGSTEN SPEED CARTRIDGE

We're introducing the groundbreaking Tungsten Speed Cartridge for the first time in a fairway wood. By incorporating up to 27g of this high-density tungsten, the Center of Gravity (CG) is pushed low and forward. The result is lower spin with more ball speed.

A.I. FACE OPTIMIZED FOR SPEED, LAUNCH AND SPIN

We've applied an all new A.I. face optimization to include speed, launch and spin. This unique face pattern is customized for each model and loft in the fairway lineup.

SPEED AND CONSISTENCY FROM A HIGH STRENGTH FACE CUP

The C300 maraging steel is specially treated through a proprietary process for high strength and flexibility, while the Flash Face Cup provides speed and spin consistency across the face.

ROGUE ST MAX D

The Rogue St Max D is for the player who needs more draw bias in their fairway woods. It's also our highest launching Rogue ST Fairway model.

ROGUE ST MAX

The Rogue ST Max Women's fairways feature all the core technology of the Rogue ST Max fairway but has been tuned specifically for women with optimized lengths, lighter swingweight, and lighter shaft and grip combination. The Rogue ST Max model features stronger lofts and slightly more open face angle compared to the Max D model. The Max model has the most robust loft offerings, plus unique progressive shaping on the 3 & 5 woods to enhance MOI.
