

OUR LONGEST IRONS EVER

ROGUE ST MAX

The Rogue ST Max irons are our longest irons ever with refined game-improvement shaping and the strongest lofts in the Rogue ST iron family. They fit a wide range of golfers looking for incredible speed, forgiveness, and all-around iron performance.

MORE BALL SPEED FROM THE ALL-NEW HIGH STRENGTH 450 A.I. DESIGNED FLASH FACE CUP

An industry-first, we combined high strength 450 steel with our A.I. designed Flash Face Cup. This delivers more ball speed and better ball speed consistency.

NEW A.I. FACE OPTIMIZATION FOR SPEED, LAUNCH AND SPIN

We've applied our new A.I. Face Optimization for Rogue ST MAX. It's unique for each model and loft to create spin rate consistency across the face. It creates high launch and COR plus a more controlled landing angle to help hold greens.

PRECISION TUNGSTEN WEIGHTING FOR OPTIMAL LAUNCH

Our new precision tungsten weighting features up to 62g of high-density tungsten, a 260% increase over MAVRIK. This provides improved launch conditions and also maximizes speed across the face.

PATENTED URETHANE MICROSPHERES FOR PURE FEEL

Our patented urethane microspheres are now pushed further up the face in Rogue ST irons (up to the 6th groove) to enhance sound and deliver pure feel while maintaining fast ball speeds.

OUR LONGEST IRONS EVER

ROGUE ST MAX OS

Rogue ST MAX OS Irons provide a refined game-improvement shaping, with high launch, wide soles, and enhanced offset. They're specifically designed for mid-to-high handicap golfers looking to get the most out of their irons.

MORE BALL SPEED FROM THE ALL-NEW HIGH STRENGTH 450 A.I. DESIGNED FLASH FACE CUP

An industry-first, we combined high strength 450 steel with our A.I. designed Flash Face Cup. This delivers more ball speed and better ball speed consistency.

NEW A.I. FACE OPTIMIZATION FOR SPEED, LAUNCH AND SPIN

We've applied our new A.I. Face Optimization to Rogue ST MAX OS. It's unique for each model and loft to create spin rate consistency across the face. This delivers high launch and COR plus a more controlled landing angle to help hold greens.

PRECISION TUNGSTEN WEIGHTING FOR OPTIMAL LAUNCH

Our new precision tungsten weighting features up to 49g of high-density tungsten, a 188% increase over MAVRIK. It provides improved launch conditions and maximizes speed across the face.

PATENTED URETHANE MICROSPHERES FOR PURE FEEL

Our patented urethane microspheres are now pushed further up the face in Rogue ST irons (up to the 6th groove) to enhance sound and deliver pure feel while maintaining fast ball speeds.

OUR LONGEST IRONS EVER

ROGUE ST MAX OS LITE

Rogue ST MAX OS Lite irons have a refined game-improvement shaping, with high launch, wide soles, and enhanced offset. The Lite version features more loft, lighter shafts and lighter swingweights to make these our highest launching, easiest to swing Rogue ST model.

MORE BALL SPEED FROM THE ALL-NEW HIGH STRENGTH 450 A.I. DESIGNED FLASH FACE CUP

An industry-first, we combined high strength 450 steel with our A.I. designed Flash Face Cup. This delivers more ball speed and better ball speed consistency.
