

PERFORMANCE THAT DEFIES CONVENTION

Flash Face for Exceptional Ball Speed and Unconventional Forgiveness

New VFT architecture and face design optimize COR for high ball speeds, while increasing consistency downrange.

Jailbreak Technology for Increased Ball Speeds

Two internal steel bars stiffen the body, placing more impact load on the face for more ball speed.

Cyclone Aero Shape for Increased Head Speed

The Cyclone aero design is engineered with a taller ribbon and flatter crown in a 460cc head, for lower drag and increased clubhead speed.

Carbon Crown

Exceptionally high forgiveness from lighter, stronger multi-layer carbon composite crown.

MAVRIK 22 DRIVERS

MODEL	9°	10.5°	12°
LOFT	Adjustable (8°-11°)	Adjustable (9.5°-12.5°)	Adjustable (11°-14°)
