

ELEVEN

RESHAPING THE Mallet

REDEFINING PERFORMANCE

NEW ELEVEN SHAPE

The Eleven shape advances the forgiveness and alignment properties of our major winning Ten model. It's designed to help you properly frame the ball with the right alignment at address, along with high MOI for better accuracy.

2-BALL TOUR DOMINANCE

When launched in 2001, the 2-Ball became the hottest putter on Tour and the best selling putter model in the marketplace. Over the last 20 plus years, 2-Ball putters have amassed 364 worldwide Tour wins and 36 Major championships, helping to make us the #1 Putter on Tour.

FORWARD CG & HIGH INERTIA

Using a multi-material design, we've moved the CG forward nearly 1/4 of an inch over other leading mallets while increasing inertia substantially. This creates improved performance, speed control, spin control, speed consistency on off-center hits, and a much tighter downrange dispersion for putts that stay on line.

RED STROKE LAB SHAFT

The newest generation of our proven multi-material Stroke Lab shaft features even better performance. By shortening the steel section, we reduced the weight by seven grams. We also made it stiffer and more stable for even more consistency in your stroke...and your performance.

WHITE HOT INSERT

Our most popular putter insert of all time is back with the original formulation, feel, sound, and performance.

HEAD	HOSEL	HEADWEIGHT	SHAFT	RH	LH	TOE HANG	LOFT	LIE	LENGTH	OFFSET
