

Rogue ST MAX D Fairway Woods

Product Name: Rogue ST MAX D Fairway Woods

Product One-liner: Our First Ever Dedicated Draw Fairway Wood

Product Intro:

The new Rogue ST fairway woods represent a breakthrough in fairway performance. Callaway's industry-leading innovations, including the all-new Tungsten Speed Cartridge, new Jailbreak ST, and an A.I. designed Flash Face are engineered for maximum speed with exceptional levels of forgiveness.

The Rogue ST MAX D is our first dedicated draw fairway wood. It's the highest launching fairway wood in our lineup and utilizes a slightly closed face, more upright lie angle and additional weight in the heel to promote a powerful draw. This model will fit players that need the most shot shape correction in their fairway wood.

Features & Benefits

Speed and Stability from all-new Jailbreak ST

The new A.I.-designed Jailbreak system has been completely redesigned to promote speed and stability. The two Jailbreak batwings are pushed to the perimeter, providing stiffness while allowing the face to flex for high ball speeds.

Optimal Launch with More Speed from the Tungsten Speed Cartridge

We're introducing the groundbreaking Tungsten Speed Cartridge for the first time in a fairway wood. By incorporating up to 27g of this high-density tungsten, the Center of Gravity (CG) is pushed low and forward. The result is lower spin with more ball speed.

A.I. Face Optimized for Speed, Launch and Spin

We've applied an all new A.I. face optimization to include speed, launch and spin. This unique face pattern is customized for each model and loft in the fairway lineup.

Speed and Consistency from a High Strength Face Cup

The C300 maraging steel is specially treated through a proprietary process for high strength and flexibility, while the Flash Face Cup provides speed and spin consistency across the face.

Upright Lie and Heel Weighting in a Dedicated Draw Model

For players that need the most shot shape correction, the MAX D model features a slightly closed face, upright lie angle, and additional weight in the heel. All these features promote a powerful draw for the game improvement golfer.
