

Rogue ST Triple Diamond LS Drivers

Product Name: Rogue ST Triple Diamond LS Drivers

Product One-liner: Industry-leading innovation has created our fastest, most stable drivers ever.

Product Intro:

The new Rogue ST Drivers represent a breakthrough in driver performance. Callaway's industry-leading innovations, including the all-new Tungsten Speed Cartridge, Jailbreak Speed Frame, and an A.I. designed Flash Face are engineered for maximum speed with a high level of forgiveness.

The Rogue ST Triple Diamond LS Driver is a low spin option for better players and is the latest evolution of our TOUR-proven Triple Diamond heads. It's the lowest spinning Rogue ST Driver model, with a neutral-to-fade bias in a compact 450cc head.

Features & Benefits

Increased Speed, Stability & High MOI from all-new Tungsten Speed Cartridge

The groundbreaking new Tungsten Speed Cartridge structure places up to 20 grams low and deep in the driver head. This increases speed on off-center hits and provides more forgiveness through high MOI.

Stability and Speed from Jailbreak Speed Frame

Our patented A.I. designed Jailbreak Speed Frame provides stability in the horizontal and torsional direction. We've speed tuned the construction, shaping, and positioning to deliver even more speed across the face.

New A.I. Designed Face for Lower Spin and Increased Forgiveness

As the industry leader in Artificial Intelligence, we've added launch and spin to ball speed in our optimization formula. This new formula lowers spin on the face, allowing us to add forgiveness to the driver.

Stability and Forgiveness from Unibody Construction

The titanium unibody construction provides stability and lowers the center of gravity, while our proprietary Triaxial Carbon crown and sole allow us to save weight. This weight is precisely redistributed to increase forgiveness with high launch and a slight draw bias.

Tour Proven Triple Diamond Head Design

This low spin option for better players is the latest version of our TOUR proven Triple Diamond shape. It's our lowest spin offering, with a compact 450cc head.
