

Supersoft MAX

Product Name: Supersoft MAX

Product One-liner: Max Distance and Max Forgiveness

Product Intro:

Supersoft MAX is a unique offering that's engineered for max distance from max forgiveness. This is our longest ball for slow speed players, with a cover design that's built to create faster ball speeds from high launch and low spin. The oversized design promotes distance, straight ball flight, and super soft characteristics in an easy-to-hit construction that conforms to the rules of golf. This is a great option for improving golfers who want to hit the ball farther and play with more confidence on the course.

Features & Benefits

Maximum Distance

Supersoft MAX is our longest ball for slow swing players. The cover is engineered for increased ball speed with high launch and low spin

Easy To Hit

The oversized design provides increased consistency and high launch while conforming to the rules of golf. All this forgiveness results in higher, longer, and straighter shots.
