

JAWS RAW
FULL TOE

**PURE SPIN IN ITS
RAWEST FORM**

Total Spin Machine

We're taking spin and control to new levels by leveraging:

- Grooves across the face, with a 37° wall angle to promote a controlled “one hop and stop” trajectory.
- New raw face enables a more direct connection between the ball and the face at impact.
- Offset Groove-in-Groove Technology.

Confidence and Versatility from Full Toe Shape and NEW J Grind

The Full Toe shape provides more face area with an enhanced but refined toe peak. The shaping works with the specialized J-Grind to make short shots around the green easy to hit, especially bunker shots and high flops. This wedge is built to perform on mid and full wedge shots too, with a pre-worn leading edge for great turf interaction.

Weight Balanced Design for Enhanced Feel and Improved Scoring Performance

The Full Toe shape pushes CG higher, for a design that creates a lower, more controlled trajectory. Our Variable Weight Port System helps us locate CG away from the heel, for solid contact and enhanced feel.

Available in Raw Face Chrome.
