## Haw man PURE SPIN IN ITS RAWEST FORM

## Total Spin Machine

We're taking spin and control to new levels by leveraging:

- NEW - option for full face grooves providing maximum spin and control
- The most aggressive groove in golf to promote a controlled "one hop and stop" trajectory
- Offset Groove-in-Groove Technology (included on $54^{\circ}-62^{\circ}$ )

## Weight Balanced Design for Enhanced Feel

Tungsten is utilized in Callaway wedges to center the CG position for control and feel.

## Versatility and Shot Making

All sand and lob wedge grinds also feature a leading edge chamfer that is designed to reduce digging, and improve turf interaction.

## What's NEW

- C Grind now available
- Left handed options in Raw Black Plasma
- Full face grooves available in $58^{\circ}$ and $60^{\circ}$ in grinds $\mathrm{S}, \mathrm{W}, \mathrm{Z}$
- Additional $62^{\circ} \mathrm{Z}$ grind, and $54^{\circ} \& 56^{\circ} \mathrm{X}$ Grind

zGRIND
Shotmakers who like to open the face around the greens
