

Paradym Star Iron Composite

Product One-liner: Light On Weight. Heavy On Performance.

Product Intro

Paradym is creating a complete shift in performance for golfers around the world, from the best players in the game to amateurs of all different skill levels. These game-changing technologies have radically broken the tradeoff between incredible distance and exceptional forgiveness. Now we're launching all those game-changing technologies in a lightweight design that's specifically dedicated to moderate swing speed players.

This is Paradym Star, optimized for impressive distance from a powerful, lightweight construction. Every facet of this ultra-premium family is engineered with consistently high launch and easy distance in mind. We've combined a Forged 455 Face with the all-new Speed Frame, giving you get the best of speed and feel, while our premium lightweight shaft allows you to generate more power from your swing.

Features & Benefits

Incredibly Easy to Swing from a Premium Lightweight Design

The Paradym Star irons are designed to be incredibly easy to swing. Utilizing an overall club design that is 33g lighter than Paradym, moderate swing speed players can maximize swing speed and increase their distance potential.

High Launch and Fast Ball Speeds

Paradym Star irons are engineered with more loft and ¼" longer club lengths than Paradym irons. The result is a higher launch with fast ball speed to give moderate swing speed players more distance.

Fast Ball Speeds with Exceptional Feel

The hollow body design features a high-strength Forged 455 face cup and Speed Frame construction for incredibly fast ball speeds. The hollow body design also features our patented urethane microspheres for enhanced feel.

Premium Lightweight Components

The ultra-premium ATTAS Speed Series shaft is just 50 grams, combined with an incredibly comfortable Winn Dri-Tac Lite grip that's just 25 grams.
