

PARADYM

# SUPER HYBRID

**DRIVER-LIKE POWER. HYBRID CONFIDENCE.**

For golfers who struggle to hit fairway woods, the Paradym Super Hybrid combines the power of a driver with the versatility of a hybrid to give you more confidence.

## DRIVER-LIKE POWER FROM A HYBRID

The Paradym Super Hybrid leverages advanced materials used in driver design to create a hybrid with driver-like power. A lightweight, yet incredibly strong A.I.-designed titanium face creates explosive speed and incredible distance.

## OVERSIZED TITANIUM BODY FOR EXTREME FORGIVENESS

An all-titanium body allows for a larger overall footprint designed for extreme forgiveness. The Paradym Super Hybrid will be your go-to club on precise shots and everywhere else.

## SPEED CARTRIDGE FOR A PENETRATING LAUNCH

Up to 91g of tungsten and steel speed cartridges are paired with the triaxial carbon crown work to precisely position the CG for a more penetrating launch.

## COMPLETE ADJUSTABILITY

We've provided complete adjustability with our lightweight OptiFit 3 Hosel, helping you dial in the ball flight and launch that you want to see.

Shaft:  
**UST RECOIL DART**  
75G (LT, REG, STIFF), 85G (X-STIFF)

Grip:  
**LAMKIN CROSSLINE 360**
