

HELD TO THE HIGHEST STANDARD

APEX CB IRONS

THE ULTIMATE TOUR IRON

FEATURES & BENEFITS

Pure Forged Performance

The Apex CB '24 irons are forged in a 5-step process from 1025 carbon steel, creating the buttery-soft feel discerning players crave. The body and face are forged as one-piece while MIM weights placed strategically in the toe to create a perfectly balanced design for enhanced workability and control.

Progressive CG Design for Added Control

A progressive CG throughout the set improves trajectory control. The long irons feature a lower CG that promotes towering shots that land soft into greens while the short irons utilize a higher CG for a lower trajectory to promote more spin for added control.

Dynamic Sole Design for Enhanced Turf Interaction

The new Apex CB '24 irons feature a Dynamic Sole Design with a pre-worn leading edge to cut through the turf more efficiently and trailing edge relief to ensure a clean exit. The result is an iron sole that maintains speed through the turf and promotes consistent contact on all shots.

Endless Combo Set Possibilities

The Apex CB '24 iron combines a classic tour shape with modern design features to create a stunning new look. The Apex CB '24 also features a thinner topline and longer blade lengths than its predecessor that seamlessly blend with the other Pro Series models to meet a player's specific needs. All Pro Series irons feature the same MIM back weight to give fitters more control to dial in swing weight.

CLUB	Loft	Availability	Lie	Offset	Build Length
3	20.5	RH/LH	60.0	3.3mm	39.00"
4	23.0	RH/LH	60.5	3.1mm	38.50"
