

Paradym Ai Smoke Max D Fairway Wood Media Sheet

Product Name: Paradym Ai Smoke Max D Fairway

Product One-Liner: Sweeter From Every Spot

The new Paradym Ai Smoke fairway represents a quantum leap forward in Callaway's Ai journey. This new family of fairway woods feature the most sophisticated face in Callaway history, the Ai Smart Face. This face uses real player data and advanced machine learning to create a series of sweet spots all over the face. The Max D fairway wood delivers our most forgiving shape and highest launch with draw bias.

Features & Benefits

Breakthrough Fairway Performance Powered by Ai Smart Face™

Ai Smoke fairway woods utilize Ai Smart Face; a breakthrough technology in face design that utilizes thousands of actual player swings. Every Ai Smart Face is designed to optimize launch and spin, creating sweet spots across the face.

A Paradym Shift from a Lighter, Stronger Carbon Chassis

The Carbon Chassis has been refined to promote enhanced weight redistribution. 24g of total weight has been repositioned throughout the head. 12g is placed low-forward to enhance launch and spin, and 12g rearward for increased forgiveness.

Optimal Launch with High Speed from the Tungsten Speed Cartridge

By incorporating a tungsten speed cartridge, we can push the center of gravity (CG) low and forward. The result is optimal launch and spin to promote maximum distance.

Refined Shaping with Adjustability for More Versatility

With progressive shaping and the most extensive offering, Ai Smoke Max Fairway Woods will be the optimal choice for players who want consistent launch and a neutral ball flight. An adjustable hosel in the 3W and 3HL models gives players additional control to dial in loft and shot shape.

High Launch with Draw Bias

The Ai Smoke Max D fairway wood is built with a more upright lie angle and a neutral face at address to deliver our most forgiving shape and highest launch with draw bias. An adjustable 3W allows players the ability to dial in launch even more.
