

PARADYM Ai SMOKE TD MAX DRIVER

MAX Shape in a Workable Design

Triple Diamond MAX blends the benefits of MAX construction with the workability and control of our Triple Diamond design. Focusing on control and forgiveness, TD MAX adds a touch more spin than standard TD, which will suit players looking for even more workability off the tee in a more forgiving shape. For players looking to increase ball speed and lower spin, the 10g rear weight can be swapped with the 4g front weight.

World's First Ai Smart Face Designed Using Real Player Data

The all-new Ai Smart Face optimizes driver performance using swing dynamics from thousands of real golfers. These swing dynamics, or Swing Code, consist of swing speed, club delivery, and face orientation just prior to impact. This promotes optimal launch conditions and tight downrange dispersion.

Micro Deflections Create Multiple Sweet Spots

With Ai Smart Face technology, micro deflections are activated upon impact helping to optimize launch and spin on off-center shots. The result is sweet spots not just in the center, but all over the face.

A Paradym Shift from a Lighter, Stronger Carbon Chassis

The 360° Carbon Chassis has been refined to promote increased weight redistribution. By adding an internal titanium support structure, the Carbon Chassis is now 15% lighter. This mass has been redistributed into the head to improve launch conditions and add forgiveness.
