

ELYTE[®]

MAX FAST

THE FUTURE OF PERFORMANCE IS ELYTE

FAIRWAY

FEATURES & BENEFITS

Lightweight Construction for Easy-to-Launch Performance

- Built from the ground up for players needing lightweight, easy to swing fairway woods.
- A premium lightweight construction and components will benefit players with moderate swing speeds.

All New Tungsten Speed Wave for consistently fast ball speeds

- Featured on the 3-7 wood, the new Tungsten Speed Wave is a 35g weight that positions mass low and forward to promote fast ball speeds.
- This new, innovative design is engineered specifically to enhance misses low on the face.

New Step Sole for Efficient Turf Interaction & Improved Center Face Contact

- Engineered for cleaner contact, the new Step Sole minimizes skidding, ensuring smoother, more solid strikes.
- Developed through extensive studies and the success of the Apex UW, this sole shape delivers better turf interaction for consistent results.

Ai 10x Face for Optimal Launch and Tight Downrange Dispersion

- Our most advanced Ai face to date, the new Ai10x Face delivers 10x more control points than the Ai Smart Face.
- Designed with our C300 Face cup to produce exceptionally fast ball speeds, tight dispersion, and optimized launch across the face.
