

ELYTE[®]

Ti

THE FUTURE OF PERFORMANCE IS ELYTE FAIRWAY

FEATURES & BENEFITS

Premium, Titanium Construction For Enhanced Performance

- A titanium body and face deliver enhanced performance, providing extreme levels of speed and forgiveness.
- Elyte Ti is a blend between the Elyte Max and Elyte Triple Diamond shape, providing the deeper face of the TD model with a shape and footprint similar to the Elyte model.
- An interchangeable weighting system allows players to toggle back and forth between lower spin with a penetrating ball flight or more forgiveness.

All New Tungsten Speed Wave for consistently fast ball speeds

- The new Tungsten Speed Wave is a 35g weight that positions mass low and forward to promote fast ball speeds.
- This new, innovative design is engineered specifically to enhance misses low on the face.

New Step Sole for Efficient Turf Interaction & Improved Centre Face Contact

- Engineered for cleaner contact, the new Step Sole minimises skidding, ensuring smoother, more solid strikes.
- Developed through extensive studies and the success of the Apex UW, this sole shape delivers better turf interaction for consistent results.

Ai 10x Face for Optimal Launch and Tight Downrange Dispersion

- Our most advanced Ai face to date, the new Ai10x Face delivers 10x more control points than the Ai Smart Face.
- Designed to produce exceptionally fast ball speeds, tight dispersion, and optimised launch across the face.
