

# ELYTE

## HYBRID

### THE FUTURE OF PERFORMANCE IS ELYTE

#### FEATURES & BENEFITS

##### Our Most Adjustable Hybrid

- The Elyte hybrid features adjustable heel-toe weights for customised shot shape.
- 13g tungsten and 3g aluminum weights can be swapped to toggle between a neutral and draw ball flight.
- And with more adjustability in the new OptiFit 4 hosel system, the Elyte hybrids are our most adjustable hybrids ever.

##### Ai Advancements for Optimal Distance, Control, and Launch

- Our most advanced Ai face to date, the new Ai10x Face delivers 10x more control points than the Ai Smart Face.
- With more precise Ai, the Ai10x Face produces exceptionally fast ball speeds, tight dispersion, and optimised launch across the face.

##### Neutral Flight & Forgiveness

- The Elyte model is best suited for golfers looking for a neutral flight in a mid-sized profile.
- This option pairs nicely with the Elyte and Elyte HL irons.

LAUNCH & SPIN	FLIGHT BIAS
MID-HIGH LAUNCH / MID-LOW SPIN	NEUTRAL

#### SHAFTS

**TRUE TEMPER PROJECT X DENALI CHARCOAL**  
60g (R), 70g (S)
