

ELYTE[®]

HYBRID

X

THE FUTURE OF PERFORMANCE IS ELYTE

FEATURES & BENEFITS

Semi-Draw Flight & Maximum Forgiveness

- The Elyte X model is best suited for golfers looking for a semi-draw flight in an oversized profile.
- This model features a taller face for more forgiveness and pairs perfectly with the Elyte X irons.

Our Most Adjustable Hybrid

- The Elyte X hybrids feature adjustable heel-toe weights for customised shot shape.
- 13g tungsten and 3g aluminum weights can be swapped to toggle between a neutral and draw ball flight.
- And with more adjustability in the new OptiFit 4 hosel system, the Elyte hybrids are our most adjustable hybrids ever.

Ai Advancements for Optimal Distance, Control, and Launch

- Our most advanced Ai face to date, the new Ai10x Face delivers 10x more control points than the Ai Smart Face.
- With more precise Ai, the Ai10x Face produces exceptionally fast ball speeds, tight dispersion, and optimised launch across the face.
