

ELYTE[®]

DRIVER

THE FUTURE OF PERFORMANCE IS ELYTE

FEATURES & BENEFITS

Tour-Proven Performance

- The Elyte Triple Diamond model is designed for players who desire a smaller footprint, lower spin and launch, and a neutral to fade bias shape off the tee.
- This model has interchangeable front-back weights to allow players to choose between more stability (heavy weight back) and lower spin (heavy weight forward).
- The Elyte Triple Diamond model features a gloss carbon crown and a clean topline, giving players the feeling of control off the tee.

Elyte Speed from Enhanced Shaping

- The all-new Elyte Triple Diamond shape provides enhanced aerodynamics for Elyte speed throughout the entire golf swing.
- The improved shape is designed to maximize swing speed with improved forgiveness and launch conditions.

The Future of Composites

- The Elyte Triple Diamond driver features an all-new Thermoforged Carbon crown.
- This aerospace grade carbon fiber enables fast head speeds while optimizing launch and spin.

Ai Advancements for Optimal Distance, Control, and Launch

- Our most advanced Ai face to date, the new Ai10x Face delivers 10x more control points than the Ai Smart Face™.
- Designed to produce exceptionally fast ball speeds, tight dispersion, and optimized launch across the face.
