

Quantum Max Fairway Woods

Quantum Max is designed for easy, high launch and built-in forgiveness, giving players more confidence on every swing. Its shallow face design enhances consistency, and its versatility makes it the ideal choice for a wide range of golfers.

Features + Benefits

Speed Wave 2.0

Positions weight low and forward for faster ball speeds and consistent launch. The new Speed Wave 2.0 design frees up even more face flex, boosting energy transfer — especially on low-face strikes.

New Step Sole Design

The new Step Sole Design reduces turf contact on the sole for efficient strikes and consistent center-face contact. A reshaped heel adds stability through impact, helping keep the face square for greater control and accuracy.

Next Generation Ai-Optimized Face Design

Consistent performance across the entire face, thanks to smarter face flex unlocked by Ai. Every part of the face is precisely tuned through advanced Ai modeling to optimize speed, spin, launch, and accuracy based on real fairway wood impact patterns.

Clean, Streamlined and Versatile Shape

Designed for players who want speed, optimal spin, and reliable consistency. With a neutral CG and confidence-inspiring look at address, it's our most versatile fairway wood for a wide range of skill levels.

OptiFit4 Hosel Adjustability (3W-5W)

Features independent loft and lie adjustability, offering eight total configurations to fine-tune launch angle and shot shape—whether you're looking for a higher trajectory, straighter ball flight, or a draw-biased setup.
