

## Quantum Max Hybrids

Quantum Max is a clean, midsized hybrid built for players looking for balanced performance. With a neutral CG and moderate face height, it offers a versatile mix of launch, forgiveness, and shot control—making it a reliable choice at the top of the bag.

### Features + Benefits

#### **Speed Wave 2.0**

Positions weight low and forward for faster ball speeds and consistent launch. The new Speed Wave 2.0 design frees up even more face flex, boosting energy transfer — especially on low-face strikes.

#### **New Step Sole Design**

The new Step Sole Design reduces turf contact on the sole for efficient strikes and consistent center-face contact. A reshaped heel adds stability through impact, helping keep the face square for greater control and accuracy.

#### **Next Generation Ai-Optimized Face Design**

Consistent performance across the entire face, thanks to smarter face flex unlocked by Ai. Every part of the face is precisely tuned through advanced Ai modeling to optimize speed, spin, launch, and accuracy based on real hybrid impact patterns.

#### **Fine-Tuned Flight and Forgiveness**

Heel-toe weighting supports straighter shots or subtle shot shape correction, while the OptiFit4 hosel lets you adjust loft and lie for optimized launch, gap consistency, and seven unique ball flight options.

#### **Clean, Midsized Shape**

Designed to be a smooth transition from woods to irons, the clean, midsized Quantum Max shape has a friendly, forgiving look at address and pairs perfectly with Quantum Max Irons.
