

QUANTUM

Ti FAIRWAY

Quantum Ti is our most advanced fairway wood, featuring a full titanium construction that blends the forgiveness of Max with the performance DNA of Triple Diamond. Designed for players seeking high-performance in a premium, confidence-inspiring fairway wood.

Titanium Construction

A full titanium construction creates discretionary weight that has been redistributed to optimize CG and promote ball speed with consistent spin—all wrapped in a premium, confidence-inspiring shape.

Speed Wave 2.0 + Step Sole Design

Maximize speed and consistency from the tee and turf. Speed Wave 2.0 positions up to 40g of tungsten low and forward to optimize launch and energy transfer, while the new Step Sole reduces turf contact and adds heel stability, helping keep the face square for consistent contact and control.

Next Generation Ai-Optimized Face Design

Consistent performance across the entire face, thanks to smarter face flex unlocked by Ai. Every part of the face is precisely tuned through advanced Ai modeling to optimize speed, spin, launch, and accuracy based on real fairway wood impact patterns.

Heel-Toe Weight Adjustability

Adjustable heel-toe weighting provides players with ball flight optimization, creating a more personalized setup for added confidence over every shot.

OptiFit4 Hosel Adjustability (3W-5W)

Features independent loft and lie adjustability, offering seven total configurations to fine-tune launch angle and shot shape—whether you're looking for a higher trajectory, straighter ball flight, or a draw-biased setup.

SHAFTS

TRUE TEMPER DENALI FROST SILVER
60g (R, S), 70g (S, X)

GRIP

GOLF PRIDE TOUR VELVET 360
