

Chrome Tour Triple Diamond Golf Balls

Product Name: Chrome Tour Triple Diamond Golf Balls

Product Intro:

Our Chrome Tour family is engineered for outstanding Tour performance with new speed technology for players who want outstanding performance, exceptional speed, consistent flight and tee-to-greenside control.

Now our Chrome Tour Triple Diamond provides all these performance characteristics in a design for faster swinging players who prefer a consistently penetrating flight, slightly firmer feel, and lower spin on full shots. Every detail has been optimized including a new Tour Fast Mantle, Seamless Tour Aero, and a high-performance Tour urethane cover.

Features + Benefits

FAST: New Tour Fast Mantle

The revolutionary new Tour Fast Mantle uses a material that offers excellent distance through an optimized core/layer system.

CONSISTENT: Advanced Seamless Tour Aero

Uniquely designed aerodynamic package and industry-leading Precision Technology manufacturing to provide the ultimate in consistency.

CONTROL: Tour Level Urethane Cover

This high-performance cover is developed for exceptional feel and greenside control.
